Infrastructure validation using Pester

methos

Agenda

- Why OVF and the benefits
- JEP (Just Enough Pester) for OVF
- Writing OVF Tests
- Demos
- Comments

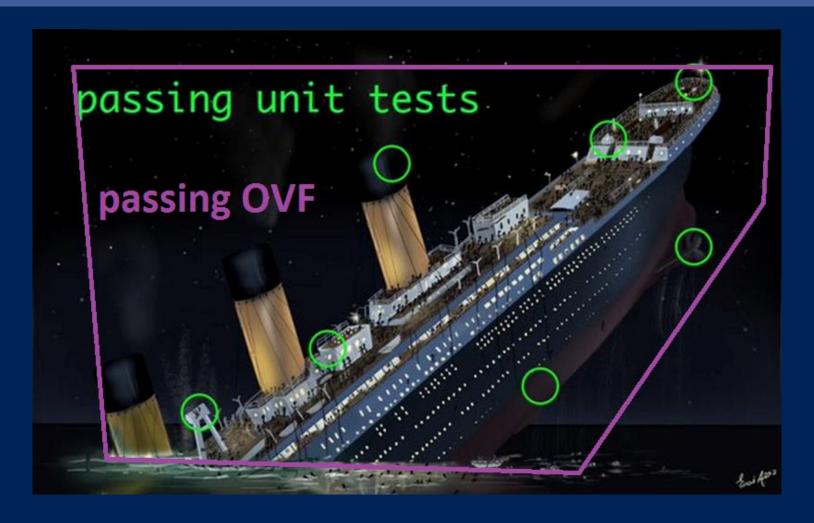

Why Operation Validation

Passing OVF test vs unit test

Why use OVF tests?

- No eyeballing the expected results
- If possible use the source input used to automate the process
- Verify operational functionality

JEP (Just Enough Pester)

Blocks

- Describe
 - Context
 - It
 - Before-,After-

Assertions

- Should
- Operators
 - Be,BeIn,BeExactly,BeLessThan...
 - Contain, Contain Exactly...
 - Match, MatchExactly
 - Exists

TestCases

```
Describe "This is the beginning of a simple OVF
test"{
    It 'Notepad exists in Windows folder' {
        'C:\Windows\notepad.exe' |
        Should -Exist
    }
}
```

Describing This is the beginning of a simple OVF test

[+] Notepad exists in Windows folder 248ms

```
Describe "Here's another simple OVF test"{
   Beforeall{
       $explorer = Get-ChildItem 'C:\windows\explorer.exe'
   Context "Verifying explorer.exe assumptions"{
       It 'Explorer.exe exists in Windows folder' {
           $explorer.VersionInfo.FileName
       Should -Exist
       It 'Production version is exactly 10.0.16299.15'{
           $explorer.VersionInfo.Productversion
       Should BeExactly '10.0.16299.15'
       it "File description equals `'Windows Explorer`'" {
           $explorer.VersionInfo.FileDescription
       Should Be 'Windows Explorer'
```

Describing Here's another simple OVF test

Context Verifying explorer.exe assumptions

- [+] Explorer.exe exists in Windows folder 150ms
- [+] Production version equals 10.0.16299.15 26ms
- [+] File description equals 'Windows Explorer' 22ms

Demo

Onboarding a customer in AD

- Create default Ous, Groups
- Create default Folders

Onboard customer users

- Validate users
- Update users

Offboarding a customer in AD

- Delete OU and all sub ADOjects
- Delete Folders

Summary

- OVF is more the mindset of Ops
- Never trust a Test that doesn't fail
- Pester is also Ops not just Dev
- OVF is about testing what's critical or mandatory
- Have fun learning how to use Pester for OVF!

Next Steps

Now: 15 min break

- Grab a coffee
- Stay here to enjoy next presentation
- Change track and switch to another room
- Ask me questions or meet me in a breakout session room afterwards
